

### Mindteck helped a county community college in Pennsylvania, USA.

#### **The Client**

The customer is a county community college in Pennsylvania, USA.

#### **Challenges**

Client required a collaborative environment for administrative staff (faculty and staff) for all their communication needs and targeted information

#### **Mindteck Solution**

Mindteck provided services by analyzing the architect, design, implementation and support of Enterprise Portal using Microsoft Office Portal Server 2003 and SharePoint Server 2007 (MOSS 2007). The solution was implemented using out of the box features of MOSS 2003 and MOSS 2007 as well as custom developed components. Mindteck team designed User Profiles and audiences integrated with Active Directory. Simultaneously a "Search Center" was setup and configured to enhance the user navigation.

Finally migration from SharePoint Portal Server 2003 to SharePoint Server 2007 was successfully completed and as a part of Knowledge sharing an extensive training and knowledge transfer for Portal administration and management was given to the internal IT team at the Client's location.

#### **Client Benefits**

- Portal implementation best suited for meeting client's current and future requirements
- Effective information distribution techniques improved students' involvement
- Technology upgrade inline with education provider's key initiatives
- Leveraging combination of onsite and near site delivery model to provide a cost effective solution for implementation
