FOR IMMEDIATE RELEASE

MINDTECK DEMONSTRATES SMART CITY SOLUTIONS AT WORKSHOP IN PUNE

Workshop held to discuss Smart Governance roadmaps and IT vision.

Bengaluru, India – November 10, 2015: Mindteck (India) Limited (BSE: MINDTECK), a global technology company, was among the select group of companies invited to make presentation on Smart City Solutions at the *Industry Consultation Workshop* held in Pune on 5th November. Objective of this workshop was to seek feedback on Pune Municipal Corporation’s overall IT strategy and to identify solutions or technology which could play a critical role in providing smarter solution to citizens in the future. Attendees included municipal commissioner, representatives from NASSCOM, management consultants and senior government officials.

Technology leader Dr. Pradeep V Desai presented an overview of Mindteck’s smart city solutions featuring Smart Street Lighting and Smart Parking. Our Intelligent Lighting Solution implemented for an UK-based utility company has announced record reductions in energy consumption and CO2 emissions. Prior to installation of energy efficient lanterns, the street lighting was consuming around 50m kWh of energy a year. This will be successfully reduced to 34m kWh this year. We are also implementing statewide ERP-based E-Nagarपालिका, a citizen-friendly local body that serves as a one-stop-shop for all e-governance solutions. “Our smart city solutions are designed keeping in mind the growing importance of information and communication technologies (ICTs). Companies have benefitted from our suite of smart city solutions developed to support OEMs, home and building automation, energy consumers and system integrators,” commented Yusuf Lanewala, Mindteck Chairman and Managing Director.

About Mindteck (India) Limited

Mindteck, a global technology company, provides Product Engineering solutions and Information Technology services to top-tier Fortune 100 companies, start-ups, leading universities and government entities worldwide. Its depth of knowledge and niche expertise in embedded systems and enterprise applications is complemented by dedicated Centers of Excellence in wireless design and storage testing. Mindteck has offices in the US, UK, Singapore, Malaysia, Netherlands, Germany, Bahrain and India, and four development centers: one each in the US and Singapore, and two in India (Kolkata and Bangalore). The company is listed on the Bombay Stock Exchange (BSE 517344) and is among a select group of global companies appraised at Maturity Level 5, Version 1.3 of the CMMI Institute’s Capability Maturity Model Integration (CMMI). It is also a Founding Member of ‘[The Atlas online](#)’ – an interactive tool that provides visualizations of growth opportunities for over one hundred countries worldwide – for the Center for International Development (CID) at Harvard University.
