FOR IMMEDIATE RELEASE

MINDTECK COLLABORATED ON BUILDING A MODULAR LAPTOP FOR SCHOOL CHILDREN

*Eco-friendly **Infinity** computer from One Education in Australia makes technology widely accessible*

Bengaluru, India – December 10, 2015: Mindteck (India) Limited (BSE: MINDTECK), a global technology company, today announced that it has designed and developed electronics and firmware for the Infinity computer— a modular, safe and eco-friendly device created to be “the perfect STEM learning experience” by One Education, a not-for-profit organization in Australia.

Mindteck was involved in the proof of concept phase that also entailed optimizing product cost. Other contributions included electronic design of various modules, such as the processor, battery and camera.

“We are thrilled to have been part of this meaningful endeavor. It happens to be In keeping with our *WE CARE* global education commitment, and it has also provided the opportunity to prove our long-standing strength in end-to-end product design. Our hope is that this will go a long way toward the development of products which are cost-effective and built to last,” commented Yusuf Lanewala, Mindteck Chairman and Managing Director.

The *Infinity* is designed to give children a head start by introducing them to essential technology at an early age, and to last for an entire childhood or longer. Every device ordered contributes to the distribution of technology to children, schools and communities who need it the most. Rangan Srikhanta, Founder and CEO of One Education, Australia, commented, “The team at Mindteck worked so closely with us that they felt like internal members of our foundation. They were responsive, and solved problems intelligently. We wouldn’t have a working *Infinity* prototype without them!”

New Modular XO-Infinity Laptop

About One Education

One Education is a social enterprise with the mission to prevent the digital divide before it forms. Every Infinity and module sale contributes to the distribution of Infinity computers to schools and communities around the world who would otherwise go without. The company recently introduced 'Infinity'— ultra-low-cost, powerful, rugged, low-power, ecological laptop. The device is live on Indiegogo, and can be pre-ordered at <http://igg.me/at/my-infinity>.

About Mindteck (India) Limited

Mindteck, a global technology company, provides Product Engineering solutions and Information Technology services to top-tier Fortune 100 companies, start-ups, leading universities and government entities worldwide. Its depth of knowledge and niche expertise in embedded systems and enterprise applications is complemented by dedicated Centers of Excellence in wireless design and storage testing. Mindteck has offices in the US, UK, Singapore, Malaysia, Netherlands, Germany, Bahrain and India, and four development centers: one each in the US and Singapore, and two in India (Kolkata and Bangalore). The company is listed on the Bombay Stock Exchange (BSE 517344) and is among a select group of global companies appraised at Maturity Level 5, Version 1.3 of the CMMI Institute's Capability Maturity Model Integration (CMMI). It is also a Founding Member of 'The Atlas online' – an interactive tool that provides visualizations of growth opportunities for over one hundred countries worldwide – for the Center for International Development (CID) at Harvard University.
